TRACK RESCUE SERVICES = FIRE / EXTRACTION TRAINING

On Saturday May 5th BARC's TRS held their annual fire / extrication training. This course was open to all TRS members, Grid Members, and Levitt Fire Crew members. Invitations were also sent to the Stewards, Marshals and the BARC Board. Thanks to all who attended it was a great learning experience. Mike McDiarmid and his team set up areas of possible accidents at a track as well as instruction areas for fire/extrication tools and the use of fire extinguishers. An intense day for sure but well worth it. Posting here a few of the great pictures taken by BARC's Brian Goldsschmied.

**Watch our web sites for more pictures from this training session
